**Safety Precautions:**

- Work in well ventilated area that is clear of obstructions.
- Secure vehicle with tire chucks in both front and rear of tires.
- Turn vehicle accessories OFF and ensure ignition key is in OFF position.
- Wear safety goggles and snug fitting clothes.
- Use tools only for their intended purpose and which are in good repair.
- Only perform this task if confidence, skill, and physical ability permit.

**NOTE: We strive to provide accurate and up-to-date installation instructions. For the latest full color instructions, as well as an installation video, please visit [www.brandmotion.com](http://www.brandmotion.com)**

## INSTALLATION INSTRUCTIONS

1. RED wire connects to accessory power.
2. BLACK wire connects to ground.
3. GREEN wire connects to the vehicle's 12-volt reverse wire.
4. Connect the power harness to the monitor.
5. Connect the video input harness to the power harness. If using the display for a back-up camera, connect to CAM2. It will trigger off reverse.
6. CAM1 can be used for "always on" video input.
7. The Allen wrench is used for screws that allow you to "lock" the mounting bracket in position.
8. If using our 9002-7607, 9002-7608, 9002-7609, FLTW-7604, or FLTW-7620 they will directly plug in to the C1 or C2 for video and power.
